

Schedule of interest rates

1 September 2023

Applicable to cash held by us in interest bearing accounts, as detailed in our Terms & Conditions

Interest rate policy

As detailed in our Terms and Conditions, we provide interest-bearing accounts in Sterling, US Dollars and Euros.

Interest is applied on all balances on a managed rate, it is calculated on a daily basis on cleared balances and applied to the account quarterly. We may increase the interest rate paid on your account without prior notification. Where the managed rate is reduced, we will provide you with at least 30 days' notice of the change.

From time to time the activities of Investment Services may result in your accounts becoming overdrawn, should the case arise we will not apply debit interest on the negative balance.

Overdrafts arising with our prior agreement may be charged an interest rate of 5% above the managed rate of the relevant currency.
