The Depositary will, however, have regard in such event to its obligations under the Depositary Agreement and the FCA Rules and, in particular, will use reasonable endeavours to ensure that the performance of its duties will not be impaired by any such involvement it may have and that any conflicts which may arise will be resolved fairly and in the best interests of Shareholders collectively so far as practicable, having regard to its obligations to other clients.

Nevertheless, as the Depositary operates independently from the Company, Shareholders, the ACD and its associated suppliers and the Custodian, the Depositary does not anticipate any conflicts of interest with any of the aforementioned parties.

Each of the parties will, to the extent of their ability and in compliance with the FCA Rules, ensure that the performance of their respective duties will not be impaired by any such involvement.

## 12 **Buying shares**

### 12.1 **Procedure**

12.1.1 Where the minimum investment levels allow, initial investments can only be made by sending a completed application form to the ACD's Transfer Agency Team at 177 Bothwell Street, Glasgow, G2 7ER, or TADealing@Evelyn.com, having made a telegraphic transfer to the ACD's bank account. Application forms are available from the ACD.

12.1.2 The ACD will accept written instructions on receipt of a payment by telegraphic transfer on subsequent transactions which can be carried out by writing to the ACD's Transfer Agency at the address set out above. The ACD will also accept telephone purchases from FCA regulated entities for subsequent investments, which may purchase shares by telephoning the ACD on 0141 222 1150. Subsequent transactions will be processed as at the next dealing day. Where an instruction has been received by telephone, or where the ACD has, at its discretion, accepted an instruction prior to receiving settlement, settlement is due within four business days of the valuation point. Purchases made by telephone are subject to risk limits at the ACD's discretion, and the ACD may at its discretion reject or defer an instruction to purchase shares until it is in receipt of cleared funds for the purchase (when the purchase of shares will be placed at the next valuation point following receipt of cleared funds). An order for the purchase of shares will only be deemed to have been accepted by the ACD once it is in receipt of cleared funds for the application.

12.1.3 Telephone calls may be recorded by the ACD, its delegates, their duly appointed agents and any of their respective related, associated or affiliated companies for record keeping, security and/or training purposes.

12.1.4 The ACD, may at its sole discretion, accept instructions to purchase shares on the basis of an authority communicated by electronic means (which will include email) and sent by the shareholder or delivered on their behalf by a person that is authorised by the FCA or regulated in another jurisdiction by an equivalent supervisory authority, subject to:

12.1.4.1 prior agreement between the ACD and the person making the communication as to:

- (a) the electronic media by which such communications may be delivered; and
- (b) how such communications will be identified as conveying the necessary authority; and

12.1.4.2 assurance from any person who may give such authority on behalf of the investor that they will have obtained the required appointment in writing from the shareholder.

12.1.5 The ACD at its discretion has the right to cancel a purchase deal if settlement is materially overdue (being more than five business days since the receipt of an application form or other instruction) and any loss arising on such cancellation shall be the liability of the applicant. The ACD is not obliged to issue shares unless it has received cleared funds from an investor.

12.1.6 The ACD reserves the right to charge interest at 4% per annum above the prevailing Bank of England base rate, on the value of any settlement received later than the fourth business day following the valuation point.

12.1.7 The ACD has the right to reject, on reasonable grounds relating to the circumstances of the applicant, any application for shares in whole or part, and in this event the ACD will return any money sent, or the balance of such monies, at the risk of the applicant. In addition, the ACD may reject any application previously accepted in circumstances where the applicant has paid by cheque and that cheque subsequently fails to be cleared.

12.1.8 Any subscription monies remaining after a whole number of shares have been issued will not be returned to the applicant. Instead, smaller denomination shares will be issued in such circumstances.

12.1.9 No interest payment will be made on client money held by the ACD, prior to investment in the Company. Client money will be held in a designated client money account with NatWest Group plc.

12.1.10 Shareholders have the right to cancel their transactions within 14 calendar days of receipt of their contract note. If a shareholder cancels their contract, they will receive a refund of the amount that they invested including the preliminary charge either in full or less a deduction to reflect any fall in share price since the date of investment. This may result in a loss on the part of the shareholder. If shareholders wish to exercise their right to cancel they should write to the ACD's Transfer Agency at the address set out in paragraph 12.1.1. Shareholders will not be able to exercise their cancellation rights after 14 calendar days of receipt of their contract note. Shareholders should note that in certain circumstances, there may be a delay in returning their investment.

## 12.2 Documentation the purchaser will receive

12.2.1 A contract note giving details of the shares purchased and the price used will be issued to the shareholder (the first named, in the case of joint holders) by the end of the next business day following the valuation point by reference to which the purchase price is determined, together with a notice of the applicant's right to cancel. Settlement is due on receipt by the purchaser of the contract note.

12.2.2 Share certificates will not be issued in respect of shares. Ownership of shares will be evidenced by an entry on the Company's register of shareholders. Tax vouchers in respect of half-yearly distributions of income will show the number of shares held by the recipient in respect of which the distribution is made. Individual statements of a shareholder's (or, when shares are jointly held, the first named holder's) shares will also be issued at any time on request by the registered holder.

## 12.3 In specie issue

If a shareholder requests, the ACD may, at its discretion and subject to the approval of the Investment Manager and the Depositary, arrange for the Company to accept securities in settlement of a purchase of shares in the Company. The ACD and the Depositary will only do so where satisfied that the acceptance of the assets concerned would not be likely to result in any material prejudice to the interests of shareholders.

## 12.4 Minimum subscriptions and holdings

12.4.1 The minimum initial and subsequent subscription levels, and minimum holdings, are set out in Appendix 1. The ACD may at its discretion accept subscriptions lower than the minimum amount.

12.4.2 If a holding is below the minimum holding the ACD has discretion to require redemption of the entire holding.

## 13 Selling shares

### 13.1 Procedure

13.1.1 Every shareholder has the right to require that the Company redeem his shares on any dealing day unless the value of shares which a shareholder wishes to redeem will mean that the shareholder will hold shares with a value less than the required minimum holding, in which case the shareholder may be required to redeem his entire holding.

- 13.1.2 Requests to redeem shares may be made in writing to the ACD's Transfer Agency at the postal or e-mail address set out in paragraph 12.1.1. The ACD may also, at its discretion and by prior agreement accept instructions to redeem shares from FCA regulated entities to the ACD by telephone on 0141 222 1150 or by fax.
- 13.1.3 Telephone calls may be recorded by the ACD, its delegates, their duly appointed agents and any of their respective related, associated or affiliated companies for record keeping, security and/or training purposes.
- 13.1.4 The ACD, may at its sole discretion, accept instructions to redeem or transfer shares on the basis of an authority communicated by electronic means (which will include email) and sent by the shareholder or delivered on their behalf by a person that is authorised by the FCA or regulated in another jurisdiction by an equivalent supervisory authority, subject to:
  - 13.1.4.1 prior agreement between the ACD and the person making the communication as to:
    - (a) the electronic media by which such communications may be delivered; and
    - (b) how such communications will be identified as conveying the necessary authority; and
  - 13.1.4.2 assurance from any person who may give such authority on behalf of the investor that they will have obtained the required appointment in writing from the shareholder.

### 13.2 Documents the seller will receive:

A contract note giving details of the number and price of shares sold will be sent to the selling shareholder (the first named, in the case of joint shareholders) or their duly authorised agent together (if sufficient written instructions have not already been given) with a form of renunciation for completion and execution by the shareholder (and, in the case of a joint holding, by all the joint holders) not later than the end of the next business day following the valuation point by reference to which the redemption price is determined. A cheque, BACS or telegraphic transfer will be made in satisfaction of the redemption monies within four business days of the later of:

- 13.2.1 receipt by the ACD of the form of renunciation (or other sufficient written instructions) duly signed by all the relevant shareholders and completed as to the appropriate number of shares, together with any other appropriate evidence of title; or
- 13.2.2 the valuation point following receipt by the ACD of the request to redeem.

### 13.3 Minimum redemption

Part of a shareholder's holding may be sold but the ACD reserves the right to refuse a redemption request if the value of the shares to be redeemed is less than any minimum redemption amount set out in Appendix 1 or would result in a shareholder holding less than the minimum holding, as detailed in Appendix 1. In the latter case the Shareholder may be asked to redeem their entire shareholding.

### 13.4 In specie redemption

- 13.4.1 If a shareholder requests the redemption of shares, the ACD may, if it considers the deal substantial in relation to the total size of the Company, arrange for the Company to cancel the shares and transfer scheme property to the shareholder instead of paying the price of the shares in cash. A deal involving shares representing 5% or more in value of the Company will normally be considered substantial, although the ACD may in its discretion agree an in specie redemption with a shareholder whose shares represent less than 5% in value of the Company concerned.
- 13.4.2 Before the proceeds of cancellation of the shares become payable, the ACD will give written notice to the shareholder that scheme property will be transferred to that shareholder.
- 13.4.3 The ACD will select the property to be transferred (or sold) in consultation with the Depositary and the Investment Manager. They must ensure that the selection is made with a view to achieving no greater advantage or disadvantage to the redeeming shareholder than to continuing shareholders.

### 13.5 Direct issue or cancellation of shares

Shares are issued or cancelled by the ACD making a record of the issue or cancellation and of the number of shares of each class concerned. In respect of any redemption, the ACD may elect not to cancel the shares redeemed but to retain those shares in a separate account for subsequent issue.

### 13.6 Initial offer

There will be an initial offer period of one day on 31 March 2006. The initial price of a share is £1 (shares will not be sold or issued in any other currency).

## 13.7 Client money

- 13.7.1 As required by the FCA's client money rules, the ACD will hold money received from clients or on the client's behalf in accordance with those rules in a pooled client bank account, with an Approved Bank (as defined in the FCA Rules) in the UK.
- 13.7.2 No interest payment will be made on client money held by the ACD. Client money will be held in a designated client money account with the NatWest Group plc.
- 13.7.3 The ACD will not be liable for any acts or omissions of the Approved Bank. The Approved Bank will be responsible for any acts or omissions within its control.
- 13.7.4 In the event of the insolvency of any party, clients' money may be pooled which means that shareholders may not have a claim against a specific account and may not receive their full entitlement, as any shortfall may be shared pro rata amongst all clients.
- 13.7.5 The ACD is covered by the Financial Services Compensation Scheme ('FSCS'). The FSCS may pay compensation if the ACD is unable to meet its financial obligations. For further information about the compensation provided by the FSCS (including the amounts covered and eligibility to claim) refer to the FSCS website [www.FSCS.org.uk](http://www.FSCS.org.uk) or call the FSCS on 020 7741 4100 or 0800 678 1100.

## 14 Share Class Conversions

- 14.1 If applicable, a holder of shares in a share class ('Old Class Shares') may exchange all or some of his shares for shares of a different share class ('New Class Shares'). An exchange of Old Class Shares for New Class Shares will be processed as a conversion ('Share Class Conversion'). A conversion of Old Class Shares into New Class Shares will not involve a redemption and issue of shares. This transaction will not be included in the calculations for the purposes of income equalisation, and the New Class Shares will receive the same treatment as the Old Class Shares.
- 14.2 The number of New Class Shares issued will be determined by a conversion factor calculated by reference to the respective prices of New Class Shares and Old Class Shares at the valuation point applicable at the time the Old Class Shares are converted to New Class Shares.
- 14.3 Share Class Conversions may be effected in writing to the Transfer Agency Team (which, in the case of joint shareholders must be signed by all the joint holders). A converting shareholder must be eligible to hold the shares into which the Share Class Conversion is to be made. It is the ACD's intention that Share Class Conversions will be processed at the next valuation point following receipt of the instruction, however the ACD reserves the right to defer a Share Class Conversion until no later than after the end of the relevant annual accounting period if it is in the interests of other shareholders. The ACD may accept requests to convert shares by electronic communication. Electronic communication includes email.
- 14.4 If the Share Class Conversion would result in the shareholder holding a number of Old Class Shares or New Class Shares of a value which is less than the minimum holding in the share class concerned, the ACD may, if it thinks fit, convert the whole of the applicant's holding of Old Class Shares to New Class Shares or refuse to effect any Share Class Conversion of the Old Class Shares.
- 14.5 Please note that, under current tax law, a Share Class Conversion of shares between different share classes will not be deemed to be a realisation for the purposes of capital gains taxation.
- 14.6 A shareholder who converts their shares in one share class to shares in a different share class will not be given a right by law to withdraw from or cancel the transaction.

## 15 Dealing charges

### 15.1 Preliminary charge

The ACD may impose a charge on the sale of shares to investors which is based on the amount invested by the prospective investor (though this may be waived wholly or partially at the ACD's discretion). The preliminary charge is payable to the ACD. Full details of the current preliminary charge for each share class are set out in Appendix 1.

### 15.2 Redemption charge

- 15.2.1 The ACD may make a charge on the redemption of shares (though this may be waived wholly or partially at the ACD's discretion). At present no redemption charge is levied.
- 15.2.2 The ACD may not introduce a redemption charge on shares unless, not less than 60 days before the introduction, it has given notice in writing to the then current shareholders at their registered address of that introduction and has revised and made available the Prospectus to reflect the introduction and the date of its commencement. If charged, the redemption charge will be deducted from the price of the shares being redeemed and will be paid by the Company to the ACD.

- 15.2.3 In the event of a change to the rate or method of calculation of a redemption charge, details of the previous rate or method of calculation will be available from the ACD.

## 16 Other dealing information

### 16.1 Dilution levy

- 16.1.1 The basis on which the Company's investments are valued for the purpose of calculating the issue and redemption price of shares as stipulated in the FCA Rules and the Company's Instrument of Incorporation is summarised in paragraph 21. The actual cost of purchasing or selling investments may be higher or lower than the mid market value used in calculating the share price — for example, due to dealing charges, or through dealing at prices other than the mid-market price. Under certain circumstances (for example, large volumes of deals) this may have an adverse effect on the shareholders' interest. In order to prevent this effect, called dilution, the ACD has the power to charge a dilution levy on the sale and/or redemption of shares. As a dilution levy is not currently charged (except on large deals, as defined below), the cost of purchasing or selling investments for the Company subsequent to shareholder dealing will be borne by the Company with a consequent effect on future growth. If the ACD decides in the future to charge a dilution levy on all deals (and not just on large deals), it will be calculated by reference to the costs of dealing in the underlying investments of the Company, including any dealing spreads, commission and transfer taxes. If charged, the dilution levy will be paid into the Company and will become part of its property.
- 16.1.2 The dilution levy for the Company will be calculated by reference to the estimated costs of dealing in the underlying investments of the Company, including any dealing spreads, commission and transfer taxes.
- 16.1.3 The need to charge a dilution levy will depend on the volume of sales or redemptions. The ACD may charge a discretionary dilution levy on the sale and redemption of shares if, in its opinion, the existing Shareholders (for sales) or remaining shareholders (for redemptions) might otherwise be adversely affected, and if charging a dilution levy is, so far as practicable, fair to all shareholders and potential shareholders. In particular, the dilution levy may be charged in the following circumstances:
- 16.1.3.1 where over a dealing period the Company has experienced a large level of net sales or redemptions relative to its size;
  - 16.1.3.2 on large deals; and
  - 16.1.3.3 in any other case where the ACD is of the opinion that the interests of the shareholders require the imposition of a dilution levy.
- 16.1.4 It is therefore not possible to predict accurately whether dilution would occur at any point in time. If a dilution levy is required then, based on future projections the estimated rate or amount of such levy will be 0.32% on sales (creation) and 0.17% on redemptions (liquidation). If a dilution levy is not charged then this may restrict the future growth of the Company.
- 16.1.5 Except in relation to large deals the ACD has no plans at present to introduce a dilution levy on the purchase or sale of shares. The ACD may alter its dilution policy either by shareholder consent pursuant to the passing of a resolution to that effect at a properly convened meeting of shareholders and by amending this Prospectus or by giving shareholders notice and amending the Prospectus 60 days before the change to the dilution policy is to take effect.

The Manger does not currently intend to charge dilution levy but retains the right to do so in the future.

## 17 Money laundering

As a result of legislation in force in the United Kingdom to prevent money laundering, persons conducting investment business are responsible for compliance with money laundering regulations. In order to implement these procedures, in certain circumstances investors may be asked to provide proof of identity when buying shares. The ACD reserves the right to reverse the transaction or to refuse to sell shares if it is not satisfied as to the identity of the applicant.

## 18 Restrictions and compulsory transfer and redemption

The ACD may from time to time impose such restrictions as it may think necessary for the purpose of ensuring that no shares are acquired or held by any person in breach of the law or governmental regulation (or any interpretation of a law or regulation by a competent authority) of any country or territory. In this connection, the ACD may, inter alia, reject in its discretion any application for the purchase, sale, transfer or conversion of shares.

## 19 Suspension of dealings in the Company

- 19.1 The ACD may, with the agreement of the Depositary, or must if the Depositary so requires, for a period of up to 28 days suspend the issue, cancellation, sale and redemption of shares in the Company, if the ACD or the Depositary is of the opinion that due to exceptional circumstances there is good and sufficient reason to do so having regard to the interests of shareholders or potential shareholders.
- 19.2 Re-calculation of the share price for the purpose of sales and purchases will commence on the next relevant valuation point following the ending of the suspension.

## 20 Governing law

All deals in shares are governed by English law.

## 21 Valuation of the Company

- 21.1 The price of a share is calculated by reference to the Net Asset Value of the Company. There is only a single price for any share as determined from time to time by reference to a particular NAV valuation point.
- 21.2 The ACD may at any time during a business day carry out an additional valuation if the ACD considers it desirable to do so.

## 22 Calculation of the Net Asset Value

- 22.1 The value of the scheme property of the Company shall be the value of its assets less the value of its liabilities determined in accordance with the following provisions.
- 22.2 All the scheme property (including receivables) of the Company is to be included, subject to the following provisions.
- 22.3 Scheme property which is not cash (or other assets dealt with in clause 22.4) or a contingent liability transaction shall be valued as follows:
- 22.3.1 units or shares in a collective investment scheme:
- 22.3.1.1 if a single price for buying and selling units is quoted, at the most recent such price; or
  - 22.3.1.2 if separate buying or selling prices are quoted, at the average of the two prices provided the buying price has been reduced by any preliminary charge included therein and the selling price has been increased by any exit or redemption charge attributable thereto; or
  - 22.3.1.3 if no price or no recent price exists, at a price which in the opinion of the ACD is fair and reasonable;
  - 22.3.1.4 any other transferable security:
  - 22.3.1.5 if a single price for buying and selling the security is quoted, at that price; or
  - 22.3.1.6 if separate buying and selling prices are quoted, the average of those two prices; or
  - 22.3.1.7 if, in the opinion of the ACD, the price obtained is unreliable or no recent traded price is available or if no price exists, at a value which in the opinion of the ACD reflects a fair and reasonable price for that investment;
  - 22.3.1.8 property other than that described in 22.3.1 and 22.3.2 above:
  - 22.3.1.9 at a value which, in the opinion of the ACD, represents a fair and reasonable mid-market price.
- 22.4 Cash and amounts held in current and deposit accounts and in other time-related deposits shall be valued at their nominal values.
- 22.5 Property which is a contingent liability transaction shall be treated as follows:
- 22.5.1 if it is a written option (and the premium for writing the option has become part of the scheme property), the amount of the net valuation of premium receivable shall be deducted.
  - 22.5.2 if it is an off-exchange future, it will be included at the net value of closing out in accordance with a valuation method agreed between the ACD and the Depositary;
  - 22.5.3 if the property is an off-exchange derivative, it will be included at a valuation method agreed between the ACD and Depositary;
  - 22.5.4 if it is any other form of contingent liability transaction, it will be included at the net value of margin on closing out (whether as a positive or negative value).
- 22.6 In determining the value of the scheme property, all instructions given to issue or cancel shares shall be assumed to have been carried out (and any cash paid or received) whether or not this is the case.

- 22.7 Subject to paragraphs 22.8 and 22.9 overleaf, agreements for the unconditional sale or purchase of property which are in existence but uncompleted shall be assumed to have been completed and all consequential action required to have been taken. Such unconditional agreements need not be taken into account if made shortly before the valuation takes place and, in the opinion of the ACD, their omission will not materially affect the final net asset amount.
- 22.8 Futures or contracts for differences which are not yet due to be performed and unexpired and unexercised written or purchased options shall not be included under paragraph 22.7.
- 22.9 All agreements are to be included under paragraph 22.7 which are, or ought reasonably to have been, known to the person valuing the property.
- 22.10 An estimated amount for anticipated tax liabilities at that point in time including (as applicable and without limitation) Capital Gains Tax, Income Tax, Corporation Tax and Advance Corporation Tax and Value Added Tax will be deducted.
- 22.11 An estimated amount for any liabilities payable out of the scheme property and any tax thereon treating periodic items as accruing from day to day will be deducted.
- 22.12 The principal amount of any outstanding borrowings whenever repayable and any accrued but unpaid interest on borrowings will be deducted.
- 22.13 An estimated amount for accrued claims for tax of whatever nature which may be recoverable will be added.
- 22.14 Any other credits or amounts due to be paid into the scheme property will be added.
- 22.15 A sum representing any interest or any income accrued due or deemed to have accrued but not received will be added.
- 22.16 Currency or values in currencies other than the base currency shall be converted at a rate of exchange that is not likely to result in any material prejudice to the interests of shareholder or potential shareholders.

## 23 Price per share in the Company and each class

- 23.1 The value per share of the Company will be calculated by dividing the Net Asset Value of the Company by the number of shares in the Company then in issue or deemed to be in issue on a dealing day and rounding the result mathematically as determined by the ACD provided that in the event the shares of the Company are further divided into classes, the ACD shall determine the method of allocating the Net Asset Value of the Company amongst the classes making such adjustments for subscriptions, redemptions, fees, dividends and any other factor differentiating the classes as appropriate. The Net Asset Value of the Company, as allocated between each class, shall be divided by the number of shares of the relevant class which are in issue or deemed to be in issue and rounding the result as determined by the ACD.
- 23.2 The price per share at which shares are sold is the sum of the Net Asset Value of a share and any preliminary charge. The price per share at which shares are redeemed is the Net Asset Value per share less any applicable redemption charge. In addition, there may, for both purchases and sales, be a dilution levy, as described in paragraph 16.1 above.

## 24 Pricing basis

The Company deals on a forward pricing basis. A forward price is the price calculated at the next valuation point after the sale or redemption is agreed.

## 25 Publication of prices

Shareholders can obtain the price of their shares on [www.trustnet.com](http://www.trustnet.com) or by telephoning 0141 222 1151.

For reasons beyond the control of the ACD, these may not necessarily be the current prices.

## 26 Best execution

The ACD must act in the best interests of the Company when executing decisions to deal on behalf of the Company. The ACD's order execution policy sets out the (i) systems and controls that have been put in place and (ii) the factors which the ACD expects the Investment Manager to consider when effecting transactions and placing orders in relation to the Company. This policy has been developed in accordance with the ACD's obligations under the FCA Rules to obtain the best possible result for the Company.

Details of the order execution policy are available from the ACD on request. If you have any questions regarding the policy please contact the ACD or your professional adviser.

## 27 Risk factors

Potential investors should consider the following risk factors before investing in the Company.

### 27.1 General

27.1.1 An investment in the Company will involve exposure to those risks normally associated with investment in stocks and shares. As such, the price of shares and the income from them can go down as well as up and an investor may not get back the amount he has invested. There is no assurance that investment objectives of the Company will actually be achieved.

27.1.2 In addition, the values, in pounds sterling terms, of investments that are not denominated in pounds sterling may rise and fall purely on account of exchange rate fluctuations, which will have a related effect on the price of shares.

27.2 The Company may have significant Investments in smaller companies, in which there may be no established market for the shares, or the market may be highly illiquid. Because of this potential illiquidity in the investments of the Company may not be appropriate for all investors, including those who are not in a position to take a long-term view of their investment.

27.2.1 Shares in the Company should generally be regarded as a long-term investment. Details of specific risks that apply are set out in Appendix 1.

### 27.3 Emerging markets

27.3.1 Where the Company invests in some overseas markets these investments may carry risks associated with failed or delayed settlement of market transactions and with the registration and custody of securities.

27.3.2 Investment in emerging markets may involve a higher than average risk.

27.3.3 Investors should consider whether or not investment in such the Company is either suitable for or should constitute a substantial part of an investor's portfolio.

27.3.4 Companies in emerging markets may not be subject:

27.3.4.1 to accounting, auditing and financial reporting standards, practices and disclosure requirements comparable to those applicable to companies in major markets;

27.3.4.2 to the same level of government supervision and regulation of stock exchanges as countries with more advanced securities markets.

27.3.5 Accordingly, certain emerging markets may not afford the same level of investor protection as would apply in more developed jurisdictions.

27.3.5.1 Restrictions on foreign investment in certain securities may be imposed on the Company and, as a result, may limit investment opportunities for the Company. Substantial government involvement in, and influence on, the economy may affect the value of securities in certain emerging markets.

27.3.5.2 The reliability of trading and settlement systems in some emerging markets may not be equal to that available in more developed markets, which may result in delays in realising investments.

Lack of liquidity or administrative efficiency in certain of the stock markets or foreign exchange markets in certain emerging markets may mean that from time to time the ACD may experience more difficulty in purchasing or selling holdings of securities than it would in a more developed market.

27.4 Upon request to the ACD a shareholder can receive information relating to:

27.4.1 the quantitative limits applying in the risk management of the Company;

27.4.2 the methods used in relation to 25.4.1.1; and

27.4.3 any recent developments of the risk and yields of the main categories of investment in the Company.

### 27.5 Liabilities of the Company

Shareholders are not liable for the debts of the Company. A shareholder is not liable to make any further payment to the Company after paying the purchase price of shares.

### 27.6 Historical performance data

Historical performance data for the Company is set out in Appendix 3.

## 28 Fees and expenses

### 28.1 General

- 28.1.1 The fees, costs and expenses relating to the authorisation and incorporation and establishment of the Company, the offer of shares, the preparation and printing of this Prospectus and the fees of the professional advisers to the Company in connection with the offer will be borne by the Company.
- 28.1.2 The Company may pay out of the property of the Company charges and expenses incurred by the Company, which will include the following expenses:
- 28.1.2.1 the fees and expenses payable to the ACD (which will include any fees and expenses payable to any external administrator, where appointed), to any Investment Manager and to the Depositary;
  - 28.1.2.2 broker's commission, (where such payment may be made in accordance with the FCA Rules) fiscal charges (including Stamp Duty and/or Stamp Duty Reserve Tax) and other disbursements which are necessarily incurred in effecting transactions for the Company and normally shown in contract notes, confirmation notes and difference accounts as appropriate;
  - 28.1.2.3 fees and expenses in respect of establishing and maintaining the register of shareholders and any sub register of shareholders (as defined in the FCA Rules) as follows:

The fee shall be payable in advance within 20 business days of the payment date. In the case of a shareholder who becomes a shareholder after the payment date (a new shareholder), that new shareholder shall pay a fee equal to the fee paid by the existing shareholders pro-rated by the number of days remaining from the date the new shareholder became a new shareholder until the next payment date, divided by 365. The current rate is £17.94 per annum.
  - 28.1.2.4 any costs incurred in or about the listing of shares in the Company on any Stock Exchange, and the creation, conversion and cancellation of shares;
  - 28.1.2.5 any costs incurred by the Company in publishing the price of the shares in a national or other newspaper;
  - 28.1.2.6 any costs incurred in producing and dispatching any payments made by the Company, or the yearly and half-yearly reports of the Company;
  - 28.1.2.7 any fees, expenses or disbursements of any legal or other professional adviser of the Company;
  - 28.1.2.8 any costs incurred in taking out and maintaining any insurance policy in relation to the Company;
  - 28.1.2.9 any costs incurred in respect of meetings of shareholders convened for any purpose including those convened on a requisition by shareholders not including the ACD or an associate of the ACD;
  - 28.1.2.10 liabilities on unitisation, amalgamation or reconstruction including certain liabilities arising after transfer of property to the Company in consideration for the issue of shares as more fully detailed in the FCA Rules;
  - 28.1.2.11 interest on borrowings and charges incurred in effecting or terminating such borrowings or in negotiating or varying the terms of such borrowings;
  - 28.1.2.12 taxation and duties payable in respect of the property of the Company or the issue or redemption of shares;
  - 28.1.2.13 the audit fees of the Auditors (including VAT) and any expenses of the Auditors;
  - 28.1.2.14 the fees of the FCA under the FCA Rules, together with any corresponding periodic fees of any regulatory authority in a country or territory outside the United Kingdom in which shares in the Company are or may be marketed;
  - 28.1.2.15 the Depositary's expenses, as detailed in paragraph 30 overleaf;
  - 28.1.2.16 any expense incurred in relation to company secretarial duties including the cost of maintenance of minute books and other documentation required to be maintained by the Company;
  - 28.1.2.17 any fees or expenses payable to any benchmark provider or administrator used by the Company (including licence fees);
  - 28.1.2.18 any payments otherwise due by virtue of the FCA Rules; and
  - 28.1.2.19 any value added or similar tax relating to any charge or expense set out herein.
- 28.1.3 Value Added Tax is payable on these charges where appropriate.

28.1.4 Expenses are allocated between capital and income in accordance with the FCA Rules. This may constrain capital growth.

28.1.5 It is the ACD's policy not to enter into any soft commission arrangements with its brokers for the supply of goods and services, in return for an agreed volume of business.

In accordance with the FCA Rules, the ACD, when executing orders or placing orders with other entities in relation to financial instruments for execution on behalf of the funds, must not accept and retain any fees, commission or monetary benefits from a third party ('Third Party Payments'). If the ACD receives any Third Party Payments, the ACD will return the Third Party Payments to the relevant fund as soon as reasonable possible and will inform unit holders of the amount received which will be set out in the annual reports.

The ACD must not accept any non-monetary benefits when executing orders or placing orders with other entities for execution in relation to financial instruments on behalf of the funds, except those which are capable of enhancing the quality of the service provided to the funds, and which are of a scale and nature such that they could not be judged to impair the ACD's compliance with its duty to act honestly, fairly and professionally in the best interests of the funds.

The ACD conducts its own research and/or uses third party providers of research. The ACD will pay for this research out of its own resources.

## 29 Charges payable to the ACD

29.1 In payment for carrying out its duties and responsibilities the ACD is entitled to be paid from the Company an annual management charge.

29.2 The annual management charge is calculated and accrued daily by reference to the Net Asset Value of the Company on the last business day of the preceding month. The amount due for each month is required to be paid, in arrears, on the last business day of the month or as soon as practicable thereafter. The current management charges for the current share classes are set out in Appendix 1.

29.3 The ACD is also entitled to be reimbursed all reasonable, properly vouched, out of pocket expenses incurred in the performance of its duties, including Stamp Duty and Stamp Duty Reserve Tax on transactions in shares.

29.4 At present the ACD's annual management charge is taken from income. However, some or all of such charge and expenses may be charged against the capital of the Company either where the amount of income received by the Company is insufficient to meet the annual management charge plus all other expenses attributable or apportioned to the Company, or with the written agreement of the Depositary. This may constrain capital growth.

29.5 If a share class's expenses in any period exceed its income the ACD may take that excess from the capital attributable to that share class.

29.6 The ACD may not introduce a new category of remuneration for its services unless the introduction has been approved by an extraordinary resolution of the shareholders.

29.7 The ACD may not increase the current rate or amount of its remuneration payable out of the scheme property of the Company or the preliminary charge unless, not less than 60 days before the introduction or increase, the ACD gives notice in writing of the introduction or increase and the date of its commencement to all shareholders and has revised and made available the Prospectus to reflect the introduction or new rate and the date of its commencement.

## 30 Depositary's fee

30.1 The Depositary receives for its own account a periodic fee, which will accrue daily by reference to the Net Asset Value of the Company on the last business day of the preceding month. The amount due for each month is required to be paid, in arrears, on the last business day of the month or as soon as practicable thereafter. The rate of the periodic fee is agreed between the ACD and the Depositary from time to time subject to the FCA Rules. At the date of this Prospectus the Depositary's fee is as per the table below.

	Depositary Fee
On scheme property below £50 million; then	0.0275% p.a.
On scheme property between £50 million and £100 million; then	0.0250% p.a.
On scheme property above £100 million, but always subject to a minimum of £7,500 p.a.	0.0200% p.a.

VAT is to be added to these fees at the standard rate (currently 20%).

- 30.2 The first accrual in relation to the Company will take place in respect of the period beginning on the day on which the first valuation of that Company is made and ending on the last business day of the month in which that day falls.
- 30.3 The total remuneration payable to the Depositary out of the property attributable to the Company for its services also includes transaction charges and custody charges:
- 30.3.1 Transaction charges vary from country to country, dependent on the markets and the value of the stock involved (as set out in the table below), accrue at the time the transactions are effected and are payable as soon as is reasonably practicable, and in any event not later than the last business day of the month when such charges arose or as otherwise agreed between the Depositary and the ACD.
- 30.3.2 Custody charges again vary from country to country depending on the markets and the value of the stock involved (as set out in the table below), accrue monthly, and are payable as agreed from time to time by the ACD and the Depositary. Registration charge of £14.41 payable to the ACD will be applied to each shareholder. In the case of a shareholder who becomes a shareholder after the payment date (a new shareholder), that new shareholder shall pay a fee equal to the fee paid by the existing shareholders pro-rated by the number of days remaining from the date the new shareholder became a new shareholder until the next payment date, divided by 365.

Custodian	Item	Range
CACEIS Bank, UK Branch	Transaction Charges	Between £1.96 and £75.65 per transaction
	Safe Custody Charges	Between 0.001% and 0.5525% of the value of investments being held that Sub-fund per annum

- 30.4 The Depositary will also be paid by the Company out of the property of the Company, expenses properly incurred in the performance of, or arranging the performance of, functions conferred on it by the Depositary Agreement, the FCA Rules or by the general law including but not limited to:
- 30.4.1 the acquisition holding and disposal of property;
- 30.4.2 the collection and distribution to shareholders of dividends, interest and any other income;
- 30.4.3 the maintenance of distribution accounts;
- 30.4.4 the conversion of foreign currency;
- 30.4.5 registration of assets in the name of the Depositary or its nominee or agents;
- 30.4.6 borrowings or other permitted transactions;
- 30.4.7 communications with any parties (including telex, facsimile, SWIFT and electronic mail);
- 30.4.8 taxation matters;
- 30.4.9 insurance matters;
- 30.4.10 costs relating to banking and banking transactions;
- 30.4.11 preparation of the Depositary's annual report;
- 30.4.12 taking professional advice;
- 30.4.13 conducting legal proceedings;
- 30.4.13.1 the convening and/or attendance at meetings of shareholders; and
- 30.4.13.2 modification of the Instrument of Incorporation, Prospectus, and negotiation and/or modification of the Depositary Agreement and any other agreement entered into between the Depositary and its delegates.
- 30.5 The Depositary shall be entitled to recover its fees, charges and expenses when the relevant transaction or other dealing is effected or relevant service is provided or as may otherwise be agreed between the Depositary and the Company or the ACD.
- 30.6 On a winding up of the Company or the redemption of a class of shares, the Depositary will be entitled to its *pro rata* fees, charges and expenses to the date of winding up, the termination, or the redemption (as appropriate) and any additional expenses necessarily realised in settling or receiving any outstanding obligations. No compensation for loss of office is provided for in the agreement with the Depositary.
- 30.7 Any Value Added Tax on any fees, charges or expenses payable to the Depositary will be added to such fees,

charges or expenses.

- 30.8 In each such case such expenses and disbursements will also be payable if incurred by any person (including the ACD or any associate or nominee of the Depository or of the ACD) who has had the relevant duty delegated to it pursuant to the FCA Rules by the Depository.

## 31 **Shareholder meetings and voting rights**

### 31.1 **Annual general meeting**

The Company will not hold an annual general meeting but may hold extraordinary general meetings.

### 31.2 **Requisitions of meetings**

31.2.1 The ACD may requisition a general meeting at any time.

31.2.2 Shareholders may also requisition a general meeting of the Company. A requisition by shareholders must state the objects of the meeting, be dated, be signed by shareholders who, at the date of the requisition, are registered as holding not less than one-tenth in value of all shares then in issue and the requisition must be deposited at the head office of the Company. The ACD must convene a general meeting no later than eight weeks after receipt of such requisition.

### 31.3 **Notice of quorum**

Shareholders will receive at least 14 days' notice of a shareholders' meeting and are entitled to be counted in the quorum and vote at such meeting either in person or by proxy. The quorum for a meeting is two shareholders, present in person or by proxy. The quorum for an adjourned meeting is also two shareholders present in person or by proxy, however if a quorum is not present from a reasonable time from the time appointed for the meeting then one person entitled to be counted in a quorum shall be a quorum. Notices of meetings and adjourned meetings will be sent to shareholders at their registered addresses.

### 31.4 **Voting rights**

31.4.1 At a meeting of shareholders, on a show of hands every shareholder who (being an individual) is present in person or (being a corporation) is present by its representative properly authorised in that regard, has one vote.

31.4.2 On a poll vote, a shareholder may vote either in person or by proxy. The voting rights attaching to each share are such proportion of the voting rights attached to all the shares in issue that the price of the share bears to the aggregate price(s) of all the shares in issue at the date seven days before the notice of meeting is deemed to have been served.

31.4.3 A shareholder entitled to more than one vote need not, if he votes, use all his votes or cast all the votes he uses in the same way.

31.4.4 Except where the FCA Rules or the Instrument of Incorporation of the Company require an extraordinary resolution (which requires 75 percent of the votes cast at the meeting to be in favour if the resolution is to be passed) any resolution required by the FCA Rules will be passed by a simple majority of the votes validly cast for and against the resolution.

31.4.5 The ACD may not be counted in the quorum for a meeting and neither the ACD nor any associate (as defined in the FCA Rules) of the ACD is entitled to vote at any meeting of the Company except in respect of shares which the ACD or associate holds on behalf of or jointly with a person who, if the registered shareholder, would be entitled to vote and from whom the ACD or associate has received voting instructions.

31.4.6 Shareholders, in clause 31.3 and this clause 31.4 only, means shareholders on the date seven days before the notice of the relevant meeting was deemed to have been served but excludes holders who are known to the ACD not to be shareholders at the time of the meeting.

## 32 **Class meetings**

The above provisions, unless the context otherwise requires, apply to share class meetings as they apply to general meetings of shareholders.

### 32.1 **Variation of class rights**

The rights attached to a share class may be varied in accordance with the requirements for a fundamental change, significant change or notifiable change in accordance with COLL 4.3.

## 33 Taxation

33.1 The following summary is only intended as a general summary of United Kingdom (UK) tax law and HMRC practice as at the date of this Prospectus, applicable to the Company and to individual and corporate investors who are the absolute beneficial owners of shares held as an investment. The summary's applicability will depend upon the particular circumstances of each investor (and it will not apply to persons, such as certain institutional investors, who are subject to a special tax regime). It should not be treated as definitive nor as removing the desirability of taking separate professional legal or tax advice. If investors are in any doubt as to their taxation position, they should consult their professional adviser. Levels and bases of, and reliefs from, taxation are subject to change in the future.

33.2 The following is divided into sections relating to bond company and equity company. A bond company is a company which invests more than 60 percent of its market value in qualifying investments (at all times in each accounting period). The term 'qualifying investments' includes money placed at interest and securities, but does not generally include equity-type investments. The tax issues relating to the Company and the investors within it are treated separately in this section.

### 33.3 Taxation of an equity Company

#### 33.3.1 Tax on capital gains

The Company is not subject to UK taxation on capital gains arising on the disposal of its investments. Should the Company be considered to be trading in securities under Revenue law, however, any gains made will be treated as income and not exempt.

#### 33.3.2 Tax on income

The Company will be liable to Corporation Tax at a rate equal to the lower rate of Income Tax, currently 20 percent, on its income after relief for expenses (which include fees payable to the ACD and to the Depositary). Dividends and similar income distributions from UK resident companies are exempt from Corporation Tax. Dividends and similar income distributions from UK authorised unit trusts and other UK ICVCs are generally exempt from Corporation Tax to the extent the underlying income derives from dividends.

#### 33.3.3 Relief for foreign withholding taxes

To the extent that the Company receives income from, or realises gains on disposal of investments in, foreign countries it may be subject to foreign withholding or other taxation in those jurisdictions. To the extent it relates to income, this foreign tax may be able to be treated as an expense for UK Corporation Tax purposes, or it may be treated, up to certain limits, as a credit against UK Corporation Tax.

### 33.4 Taxation of a bond Company

#### 33.4.1 Corporation tax

The Company will be liable to UK Corporation Tax on income received, translated (where appropriate) into sterling, from investments in debt, debt related securities and cash deposits. Such income will be computed according to the generally accepted accounting practice relevant to the Company.

The total of the above elements will be taxed under Schedule D Case III. Any income received from UK equities will be exempt from UK Corporation Tax.

The Company would be expected to be entitled to make up distribution accounts in such a way that the income distribution (including accumulations of income, which are deemed to be paid and reinvested as capital)

to shareholders is treated as if it were interest for UK tax purposes. If so entitled, the Company intends that distributions will be made in this way.

The treatment of distributions as interest distributions for UK tax purposes is significant in two material respects:

- (i) distributions made should be deductible for Corporation Tax purposes against UK taxable income; and
- (ii) UK Income Tax lower rate, currently 20 percent, should be deducted from distributions made by the Company and accounted for by it to HMRC. However the obligation to deduct Income Tax from interest distributions does not apply in certain cases, notably where a non-resident beneficial owner of the shares makes a valid declaration (NOR declaration) to the Company in advance of a distribution being made or the distribution is paid to certain categories of qualifying intermediary.

Schedule D Case III income, less gross interest distributions for UK Corporation Tax purposes, expenses (including ACD's and Depositary's fees) and non-UK withholding taxes, is subject to UK Corporation Tax at a rate equal to the lower rate of Income Tax (currently 20 percent). It is not expected that the Corporation Tax charge will be significant.

Capital gains (except insofar as treated as Schedule D Case III income gains — see above) accruing to a bond company will be exempt from UK tax on chargeable gains.

### 33.4.2 Stamp Duty Reserve Tax

With effect from 30 March 2014 SDRT is not chargeable on the surrender of units to the fund.

Shareholders are generally liable to SDRT at 0.5 percent on acquiring units from a third party (that is, where the transaction is not handled by the fund) and in cases where they redeem units in consideration of a transfer of assets of the fund other than cash (an in specie redemption) and that consideration is non-pro rata (not in proportion to the total assets of the fund).

## 33.5 The shareholder — equity Company

### 33.5.1 Income distributions

Accumulations and distributions of income (hereinafter 'distributions') comprise income for UK tax purposes. Except for shareholders within the charge to Corporation Tax (as explained below), dividend distributions to UK resident shareholders carry a tax credit equivalent to 10 percent of the aggregate of the distribution and the tax credit (i.e. one-ninth of the amount distributed/accumulated).

UK resident individuals and (the Trustees of) certain trusts liable to UK Income Tax will be taxable on the sum of their distributions and associated tax credits but will be entitled to set the tax credits against their UK Income Tax liability. Associated tax credits will satisfy the liability to Income Tax of starting and basic rate taxpayers. Higher rate taxpayers who are individuals will have additional tax to pay, the distributions and associated tax credits being taxed at a special rate of 32.5 percent with the offset of a 10 percent tax credit. If the total income of a shareholder who is an individual is less than his/her personal allowances, the associated tax credits applicable to dividend distributions cannot be repaid

Distributions to shareholders within the charge to Corporation Tax are deemed to comprise two elements:

- (i) where the Company's gross income is not wholly derived from franked investment income, part of any distribution will be deemed to be reclassified as an annual payment received by such shareholders after deduction of Income Tax at the lower rate, currently 20 percent (deemed tax deducted). Such shareholders will be subject to Corporation Tax on the grossed-up amount of the annual payments but will be entitled to the repayable deemed tax deducted. This repayment is, however, restricted to the lower of the deemed tax deducted and the shareholder's share of the Company's Corporation Tax liability (after double tax relief on overseas income) for the period; and
- (ii) the remainder, which comprises franked investment income after grossing up the net distribution for the 10 percent tax credit. Such franked investment income, as it is known, is exempt from UK Corporation Tax.

Details of the proportions of distributions comprising franked investment income and annual payments will be shown on the tax voucher of the Company concerned.

These rules do not apply or are modified in relation to life insurance companies, in particular those with pensions and ISA business, life reinsurance business or overseas life assurance business.

### 33.5.2 Capital gains

Shareholders who are resident or ordinarily resident in the UK may be liable to UK taxation on capital gains arising from the sale or other disposal, including redemption, of shares. Individuals and certain trusts generally compute their gains by deducting from the net sale proceeds the capital gains base cost in respect of units. The resulting gains may be eligible for taper relief, on a sliding scale depending on the length of time the asset was owned, and may be reduced by capital losses brought forward from previous tax years or losses in the year, and by annual exemptions. Exempt shareholders, which include UK charities, UK approved pension funds and ISAs (and their individual investors), would not normally be expected to be liable to capital gains tax on the disposal of shares.

Shareholders within the charge to Corporation Tax are taxed on the capital gain made computed on the basis of the rules described above. They are, however, entitled to indexation allowance on the basic cost to the date of disposal, not taper relief. In certain cases, the loan relationships provisions mentioned below in relation to bond companies could apply.

### 33.5.3 Inheritance tax

A gift by a shareholder of his shareholding in the Company or the death of a shareholder may give rise to a liability to inheritance tax, except where the shareholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a shareholding at less than the full market value may be treated as a gift.

## 33.6 Taxation of the shareholder — bond Company

### 33.6.1 Income distributions

Distributions comprise income for UK tax purposes. Shareholders will be taxable on the gross amount distributed. Except in the case of an exemption from the obligation to deduct Income Tax (for instance, where a valid non resident investors' declaration has been made or the distribution is paid to certain categories of qualifying intermediary), the amount actually received will be net of tax at the lower rate, currently 20 percent and so the amount to be taxed is at present equal to the amount received plus the tax element of one quarter as much.

Shareholders will be treated as already having paid 20 percent Income Tax on this income, and individuals liable to starting or basic rate tax will have no further tax to pay. Higher rate taxpayers will have an additional liability, but those with no liability at all or who are only liable at the starting rate may be able to claim a refund. Corporate shareholders will be able to set the Income Tax deducted against tax payments due to the HMRC or claim repayment where there are none. Non UK resident shareholders, on completing the appropriate declarations, may be entitled to receive distributions gross of tax.

Exempt shareholders, which include UK charities, UK approved pension funds and ISAs, should be able to recover the tax deducted from the HMRC.

### 33.6.2 Capital gains

Shareholders who are resident or ordinarily resident in the UK may be liable to UK taxation on capital gains arising from the sale or other disposal, including redemption, of shares. Individuals and certain trusts generally compute their gains by deducting from the net sale proceeds the capital gains base cost in respect of units. The resulting gains may be eligible for taper relief, on a sliding scale depending on the length of time the asset was owned, and may be reduced by capital losses brought forward from previous tax years or losses in the year, and by annual exemptions. Exempt shareholders, which include UK charities, UK approved pension funds and ISAs (and their individual investors), would not normally be expected to be liable to capital gains tax on their disposal of shares.

In respect of shareholders subject to Corporation Tax, holdings in the Company will be treated as holdings of loan relationships. Gains will be recognised using the fair value method (which entails holdings being valued at the end of each accounting period and unrealised gains being recognised/taxed and unrealised losses being recognised/relieved). No indexation allowance or taper relief is available.

### 33.6.3 Inheritance tax

A gift by a shareholder of his shareholding in the Company or the death of a shareholder may give rise to a liability to inheritance tax, except where the shareholder is neither domiciled in the UK, nor deemed to be domiciled there under special rules relating to long residence or previous domicile in the UK. For these purposes, a transfer of a shareholding at less than the full market value may be treated as a gift.

## 33.7 EU Directive on taxation of savings income

Any person regarded as a paying agent for the purposes of the Taxation of Savings Income Directive (EC Directive 2003/48/EC) may be required to disclose to HMRC details of payments of interest and other income (which may include distributions on redemption payments by collective investment funds) to shareholders who are individuals or residual entities. HMRC will pass such details to the member state where the shareholder resides.

## 34 Income equalisation

34.1 Income equalisation, as explained below, may apply in relation to the Company, as detailed in Appendix 1.

34.2 Part of the purchase price of a share reflects the relevant share of accrued income received or to be received by the Company. This capital sum is returned to a shareholder with the first allocation of income in respect of a share issued during an accounting period.

34.3 The amount of income equalisation is either the actual amount of income included in the issue price of that share or is calculated by dividing the aggregate of the amounts of income included in the price of shares issued or sold to shareholders in an annual or interim accounting period by the number of those shares and applying the resultant average to each of the shares in question.

## 35 Winding up of the Company

- 35.1 The Company shall not be wound up except as an unregistered company under Part V of the Insolvency Act 1986 or under the FCA Rules.
- 35.2 Where the Company is to be wound up under the FCA Rules, such winding up may only be commenced following approval by the FCA. The FCA may only give such approval if the ACD provides a statement (following an investigation into the affairs of the Company) either that the Company will be able to meet its liabilities within 12 months of the date of the statement or that the Company will be unable to do so. The Company may not be wound up under the FCA Rules if there is a vacancy in the position of ACD at the relevant time.
- 35.2.1 The Company may be wound up under the FCA Rules if:
- 35.2.1.1 an extraordinary resolution to that effect is passed by shareholders; or
  - 35.2.1.2 the period (if any) fixed for the duration of the Company by the Instrument of Incorporation expires, or an event (if any) occurs on the occurrence of which the Instrument of Incorporation provides that the Company is to be wound up (for example, if the share capital of the Company is below its prescribed minimum); or
  - 35.2.1.3 on the date of effect stated in any agreement by the FCA to a request by the ACD for the revocation of the authorisation order in respect of the Company.
- 35.2.2 On the occurrence of any of the above:
- 35.2.2.1 the parts of the FCA Rules and the Instrument of Incorporation relating to pricing and dealing and investment and borrowing will cease to apply to the Company;
  - 35.2.2.2 the Company will cease to issue and cancel shares and the ACD shall cease to sell or redeem shares or arrange for the Company to issue or cancel them for the Company;
  - 35.2.2.3 no transfer of a share shall be registered and no other change to the register shall be made without the sanction of the ACD;
  - 35.2.2.4 where the Company is being wound up, the Company shall cease to carry on its business except in so far as it is beneficial for the winding up of the Company; or
  - 35.2.2.5 the corporate status and powers of the Company and, subject to the provisions of paragraphs 35.2.2.1 and 35.2.2.4 above, the powers of the ACD shall remain until the Company is dissolved.
- 35.2.3 The ACD shall, as soon as practicable after the Company falls to be wound up, realise the assets and meet the liabilities of the Company and, after paying out or retaining adequate provision for all liabilities properly payable and retaining provision for the costs of winding up, arrange for the Depositary to make one or more interim distributions out of the proceeds remaining (if any) to shareholders proportionately to their rights to participate in the scheme property of the Company. When the ACD has caused all of the scheme property to be realised and all of the liabilities of the Company to be realised, the ACD shall arrange for the Depositary to also make a final distribution to shareholders (if any scheme property remains to be distributed) on or prior to the date on which the final account is sent to shareholders of any balance remaining in proportion to their holdings in the Company.
- 35.2.4 As soon as reasonably practicable after completion of the winding up of the Company, the ACD or the Company shall notify the FCA.
- 35.2.5 On completion of a winding up of the Company, the Company will be dissolved and any money (including unclaimed distributions) standing to the account of the Company, will be paid into court within one month of dissolution.
- 35.2.6 Following the completion of the winding up of the Company, the ACD shall notify the Registrar of Companies and shall notify the FCA that it has done so.
- 35.2.7 Following the completion of the winding up of the Company, the ACD must prepare a final account showing how the winding up took place and how the scheme property was distributed. The Auditors of the Company shall make a report in respect of the final account stating their opinion as to whether the final account has been properly prepared. This final account and the Auditors' report must be sent to the FCA, to each shareholder and, in the case of the winding up of the Company, to the Registrar of Companies within two months of the termination of the winding up.

36.2.4 If a distribution remains unclaimed for a period of six years after it has become due, it will be forfeited and will revert to the Company.

36.2.5 The amount available for distribution in any accounting period is calculated by taking the aggregate of the income received or receivable for the account of the Company in respect of that period, and deducting the charges and expenses of the Company paid or payable out of income in respect of that accounting period. The ACD then makes such other adjustments as it considers appropriate (and after consulting the Auditors as appropriate) in relation to taxation, income equalisation, income unlikely to be received within 12 months following the relevant income allocation date, income which should not be accounted for on an accrual basis because of lack of information as to how it accrues, transfers between the income and capital account and any other adjustments which the ACD considers appropriate after consulting the Auditors.

## Investment objectives, policies and other details of the Company

Investment of the assets of the Company must comply with the FCA Rules and its own investment objective and policy. Details of the investment objective and policy are set out overleaf together with other information including available share classes, charges, minimum investment levels and distribution dates. A detailed statement of the investment and borrowing restrictions applicable to the Company is contained in Appendix 2. A list of the eligible securities and derivatives markets on which the Company may invest is contained in Appendix 4 and Appendix 5.

### **Additional risk warnings**

The Pharaoh Fund may also invest in emerging markets which are undergoing rapid growth and regulatory change. Emerging markets present additional risks to those normally encountered in developed securities markets. These risks may be political, social and economic in nature and may be complicated by inflationary pressures and currency depreciation. The accounting and financial reporting standards, practices and disclosure requirements in some of the countries in which investments may be made may differ from those experienced in more developed markets. Similarly, reliability of the trading and settlement systems in such markets and the liquidity of these markets may not be equal to those available in more developed markets and this could lead to delays in settlement or affect the price at which investments could be realised. Government influence or control of private companies in some countries may be significant and investments may be exposed to the risks of political change, political uncertainty or governmental action. Such assets could be expropriated, nationalised, confiscated or subjected to changes in legislation relating to foreign ownership. The value of investments in emerging markets may therefore be adversely affected by political and/or economic conditions, which would, in turn, adversely impact on the performance of the Company and its share price.

The property of the Company will be invested with the aim of achieving the investment objective but subject to the limits on investment set out in the FCA Rules and the investment policy. These limits apply to the Company as summarised below:

- 1.1.1 Generally the Company will invest in the investments to which it is dedicated including approved securities which are transferable securities admitted to or dealt on a regulated market or on a market in the UK or an EEA state which is regulated, operates regularly and is open to the public, units in collective investment schemes, warrants, money market instruments and deposits. The Company will only hold derivatives or forward transactions in accordance with paragraph 1.7 (this Appendix).
- 1.1.2 Eligible markets are regulated markets or markets established in the United Kingdom (the “UK”) or an EEA state which are regulated, operate regularly and are open to the public; and markets which the ACD, after consultation with the Depositary, has decided are appropriate for the purpose of investment of or dealing in the property of the Company having regard to the relevant criteria in the FCA Rules and guidance from the FCA. Such markets must operate regularly, be regulated, recognised, open to the public, adequately liquid and have arrangements for unimpeded transmission of income and capital to or to the order of the investors. The eligible securities and derivatives markets for the Company are set out in Appendix 4 and Appendix 5.
- 1.1.3 New eligible securities markets may be added to the existing list only by the passing of a resolution of shareholders at a shareholders’ meeting. If not, then the ACD and the Depositary will need to assess whether such an addition would be a significant event requiring shareholders to be notified of the change 60 days in advance, and for the Prospectus to reflect the intended change and the date of commencement, or if the addition is of minimal significance to the investment policy of the Company such that shareholders will simply be notified of the change, whether by immediate notification or in the next report for the Company.

#### 1.2 Transferable securities

- 1.2.1 Up to 10 percent of the value of the Company may be invested in transferable securities which are not approved securities.
- 1.2.2 Up to 5 percent of the Company may be invested in transferable securities (other than Government and public securities) and money market instruments issued by any one issuer. However, up to 10 percent in value of the Company may be invested in those securities and instruments (or certificates representing those securities) issued by the same issuer if the value of all such holdings combined does not exceed 40 percent of the value of the property of the Company. Up to 20 percent in value of the scheme property of the Company can consist of transferable securities or money market instruments issued by the same group (being companies included in the same group for the purposes of consolidated accounts as defined in accordance with Directive 2013/34/EU, or the statutory equivalent thereof, which forms part of UK law by virtue of the EUWA, as applicable, or in the same group in accordance with international accounting standards).
- 1.2.3 Up to 100 percent of the scheme property of the Company may be invested in government and public securities issued by or on behalf of or guaranteed by a single named issuer which may be one of the following: the government of the Governments of the United Kingdom, Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Poland, Portugal, Spain, Slovakia, Slovenia, Sweden, The Netherlands, Australia, Canada, Japan, New Zealand, Norway, Switzerland or the United States of America.
- 1.2.4 If more than 35 percent in value of the scheme property of the Company is invested in government and public securities issued by any one issuer, no more than 30 percent in value of the scheme property of the Company may consist of such securities of any one issuer and the scheme property must include at least six different issues whether of that issuer or another issuer.

## 13 Collective investment schemes

- 1.3.1 Except where the investment policy of the Company is inconsistent with this, up to 100 percent in value of the scheme property of the Company may be invested in units in other schemes, although not more than 20 percent in value of the scheme property of the Company is to consist of the units of any one collective investment scheme. Up to 100 percent of the scheme property of the Company may be invested in collective investment schemes managed by the ACD, or an associate of the ACD, subject to the rules contained in COLL 5.2.15. Investment may only be made in other collective investment schemes whose maximum annual management charge does not exceed 5 percent.
- 1.3.2 The investee schemes must comply with 1.3.3 and 1.3.4 (although no more than 30 percent in value of the scheme property of the Company may be invested in units in collective investment schemes which do not comply with the conditions necessary for them to enjoy the rights conferred by the UCITS Directive).
- 1.3.3 Any schemes in which the Company invests need to:
- 1.3.3.1 be a UK UCITS or comply with the conditions necessary for them to enjoy the rights conferred by the UCITS Directive as implemented in the EEA ; or
  - 1.3.3.2 be recognised under the provision of Section 272 of the Financial Services and Market Act 2000; or
  - 1.3.3.3 be authorised as a non-UCITS retail scheme (provided certain requirements are met); or
  - 1.3.3.4 be authorised in an EEA state (provided certain requirements are met).

Provided that for 1.3.3.3 and 1.3.3.4 certain requirements are met.

- 1.3.4 Investee schemes must also comply with the rules relating to investment in other group schemes contained in the FCA Rules and themselves be schemes which have terms which prohibit more than 10 percent of their assets consisting of units in other collective investment schemes.
- 1.3.5 The Company may invest in units of collective investment schemes and pay any related charges or expenses for investing in such units unless the schemes are managed, operated or administered by the ACD (or one of its associates) in which case, the Company will pay no additional management or administrative charges to the ACD or its associate (as the case may be).

## 14 Warrants and nil and partly paid securities

- 1.4.1 Up to 5 percent in value of the scheme property of the Company may consist of warrants, provided that warrants may only be held if it is reasonably foreseeable there will be no change to the scheme property between the acquisition of the warrant and its exercise and the rights conferred by the proposed warrant and all other warrants forming part of the scheme property at the time of the acquisition of the proposed warrant will be exercised and that the exercise of the rights conferred by the warrants will not contravene the FCA Rules.
- 1.4.2 Securities on which any sum is unpaid may be held provided that it is reasonably foreseeable that the amount of any existing and potential call for any sum unpaid could be paid by the Company at any time when the payment is required without contravening the FCA Rules.
- 1.4.3 A warrant which is an investment falling within article 80 of the Regulated Activities Order (certificates representing certain securities) and which is akin to an investment falling within article 79 (instruments giving entitlement to investments) of the Regulated Activities Order may not be included in the scheme property unless it is listed on an eligible securities market.

## 15 Money market instruments

- 1.5.1 Up to 100 percent in value of the scheme property of the Company can consist of money market instruments, which are normally dealt in on the money market, are liquid and whose value can be accurately determined at any time provided the money market instrument is admitted to or normally dealt on an eligible market; or is issued or guaranteed by one of the following: the government of the United Kingdom, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Portugal, Spain, Sweden, The Netherlands, Australia, Canada, Japan, New Zealand, Norway, Switzerland and the United States of America; or issued by a body, any securities of which are dealt in on an eligible market; or issued or guaranteed by an establishment subject to prudential supervision in accordance with criteria defined by Community law or by an establishment which is subject to and complies with prudential rules considered by the FCA to be at least as stringent as those laid down by UK or Community law.

## 1.7 Derivatives and forward transactions

1.7.1 Derivative transactions may be used for the purposes of hedging. In pursuing the Company's objective the ACD may make use of a variety of derivative instruments in accordance with the FCA Rules. Where derivatives are used for hedging, or in accordance with efficient portfolio management techniques, then this will not compromise the risk profile of the Company. Use of derivatives will not contravene any relevant investment objective or limit.

1.7.2 Except as set out in 1.7.4 below there is no upper limit on the use of transactions in derivatives or forward transaction for the Company but they must fall under 1.7.2 and 1.7.3.

1.7.3.3 be effected on or under the rules of an eligible derivatives market it must not cause the Company to diverge from its investment objective, must not be entered into if the intended effect is to create the potential for an uncovered sale of one or more transferable securities, money market instruments, units in collective investment schemes, or derivatives and must be with an approved counterparty.

Use of derivatives must be supported by a risk management process maintained by the ACD which should take account of the investment objective and policy of the Company.

1.7.4 A transaction in derivatives or forward transaction is to be entered into only if the maximum exposure, in terms of the principal or notional principal created by the transaction to which the scheme is or may be committed by another person is covered under clause 1.7.4.1.

1.7.4.1 Exposure is covered if adequate cover from within the scheme property for the Company is available to meet its total exposure, taking into account the initial outlay, the value of the underlying assets, any reasonably foreseeable market movement, counterparty risk, and the time available to liquidate any positions.

1.7.4.2 Cash not yet received into the scheme property of the Company, but due to be received within one month, is available as cover for the purposes of clause 1.7.4.1.

<sup>2</sup> Efficient portfolio management ('EPM') transactions may involve options, futures or contracts for differences or forward transactions in accordance with the FCA Rules. There is no limit on the amount of the property of the Company which may be used for these purposes, but there are various requirements which must be satisfied. The specific aims of EPM are:

- (a) the reduction of risk — to hedge against either price or currency fluctuation to avoid volatility in the market and limit the down side of the risk;
- (b) the reduction of cost; and
- (c) the generation of additional capital or income for a scheme with no, or an acceptably low, level of risk.

The transaction must be economically appropriate for the purposes of EPM and any exposure must be fully covered by cash or other property sufficient to meet any obligation to pay or deliver that could arise

- 1.7.5 The exposure to any one counterparty in an OTC derivative transaction must not exceed 5 percent in value of the scheme property of the Company and in any case may not exceed the net value of its scheme property. This limit is raised to 10 percent where the counterparty is an approved bank.
- 1.7.6 Additional capital or income for the Company may be generated with no, or with an acceptably low level of, risk if the ACD reasonably believes that the Company is certain (or certain barring events which are not reasonably foreseeable) to derive a benefit from the transaction, and in this context the Company may:
- 1.7.6.1 take advantage of pricing imperfections in relation to the acquisition and disposal (or disposal and acquisition) of rights in relation to the same or equivalent property of a kind that the Company holds or may properly hold; and
  - 1.7.6.2 receive a premium for the writing of a covered call option or a covered put option, even if the benefit is obtained at the expense of surrendering the chance of yet greater benefit.
- 1.7.7 Any derivatives transaction (that is a transaction involving an option, a future or a contract for differences) under the above paragraphs must be in an approved derivative, a permitted off exchange option or a 'synthetic future':
- 1.7.7.1 an explanation of what is meant by the term an 'approved derivative' is set in the definitions at the front of this document; and
  - 1.7.7.2 an off-exchange derivative is subject to specific regulation, as is a synthetic future (which is a composite derivative created out of two separate options which must be bought and written on a single eligible derivatives market).
- 1.7.8 Forward transactions must be entered into with counterparties who satisfy the regulation.
- 1.7.9 A permitted transaction may at any time be closed out.

## 1.8 Combinations of investments

In applying the limits in 1.2.2, 1.6 and 1.7 not more than 20 percent in value of the scheme property is to consist of any combination of two or more of the following: (a) transferable securities or money market instruments issued by; or (b) deposits made with; or (c) exposures from OTC derivatives transactions made with; a single body.

## 1.9 Concentration

- 1.9.1 The Company must not hold more than:
- 1.9.1.1 10 percent of the transferable securities issued by a body corporate which do not carry rights to vote on any matter at a general meeting of that body; or
  - 1.9.1.2 10 percent of the debt securities issued by any single body; or
  - 1.9.1.3 10 percent of the money market instruments issued by any single body; or
  - 1.9.1.4 25 percent of the units in a collective investment scheme.
- 1.9.2 The Company must not acquire transferable securities issued by a body corporate and carrying rights to vote (whether or not on substantially all matters) at a general meeting of that body corporate if:
- 1.9.2.1 immediately before the acquisition, the aggregate of any such securities held by the Company gives the Company power to influence significantly the conduct of business of that body corporate; or
  - 1.9.2.2 the acquisition gives the Company that power.
- 1.9.3 For the purpose of 1.9.2.1, the Company is to be taken to have power significantly to influence the conduct of business of a body corporate if it can, because of the transferable securities held by it, exercise or control the exercise of 20 percent or more of the voting rights in that body corporate (disregarding for this purpose any temporary suspension of voting rights in respect of the transferable securities of that body corporate).

## 1.10 General

- 1.10.1 Underwriting and sub-underwriting contracts and placings may also, subject to certain conditions set out in the FCA Rules, be entered into for the account of the Company.
- 1.10.2 Cash or near cash must not be retained in the scheme property of the Company except in order to enable the pursuit of the investment objective; or for redemption of shares in the Company; or efficient management of the Company in accordance with its investment objective or for a purpose which may reasonably be regarded as ancillary to the investment objectives of the Company.

1.11 **Borrowing powers**

- 1.11.1 The Company may, subject to the FCA Rules, borrow money from an eligible institution or an approved bank for the use of the Company on the terms that the borrowing is to be repayable out of the scheme property.
- 1.11.2 Borrowing must be on a temporary basis and must not be persistent and in any event must not exceed three months without the prior consent of the Depositary, which may be given only on such conditions as appear appropriate to the Depositary to ensure that the borrowing does not cease to be on a temporary basis.
- 1.11.3 The ACD must ensure that borrowing does not, on any business day, exceed 10 percent of the value of the scheme property of the Company.
- 1.11.4 These borrowing restrictions do not apply to 'back-to-back' borrowing to be cover for transactions in derivatives and forward transactions.
